SUMMARY

Backend-focused Computer Science undergraduate skilled in Java, Spring Boot, REST APIs, and microservices architectures. Experienced in building secure, distributed systems utilizing Apache Kafka, Redis, and relational/NoSQL databases. Strong foundation in Data Structures, OOP, concurrency, and database optimization, seeking a Backend Developer role to deliver scalable enterprise solutions.

EDUCATIONAL QUALIFICATIONS

Bachelors of Technology (B.Tech - CSE)

- JECRC University | CGPA - 9.14 **2023 - 2027**

Senior Secondary

- Prerna Public Senior Secondary School | 92.00% **2021 - 2022**

PROJECTS

ArthSetu – Distributed Digital Banking Platform : Live Demo

Spring Boot | Java | Spring Cloud Gateway | Apache Kafka | Redis (Redisson) | PostgreSQL | Spring Data JPA

- Developed an event-driven digital banking core using Java 21, Spring Boot, and Spring Cloud Gateway.
- Implemented Saga-based distributed transaction orchestration with automated Kafka compensating workflows.
- Built comprehensive automated test suites (37 tests across 7 suites) ensuring 100% test coverage and reliability.

TruthTrace – AI Assisted Fake News Detection Platform :

Spring Boot | Java | React.js | MySQL | OCR | NLP

- Developed a full-stack fake news detection platform using Spring Boot, React.js, and MySQL.
- Implemented NLP-based rumor analysis and OCR-powered screenshot text extraction features.
- Designed REST APIs and integrated backend services for secure data processing and rumor tracking.

LifeLedger – AI-Powered Student Productivity Platform :

Spring Boot | Java | MySQL | JWT Authentication | REST APIs | Reacts.js

- Developed a full-stack app and career guidance platform using Spring Boot, React.js, and MySQL.
- Implemented JWT-based authentication, secure REST APIs, and personalized progress tracking features.
- Designed intelligent study planning, productivity analytics, and recommendation-based dashboard functionalities.

SKILLS

- **Programming Language:** Java (Java 21), C, JavaScript.
- **Backend & Microservices:** Spring Boot 3, Spring Cloud Gateway, REST APIs, Microservices Architecture, JWT Authentication, Exception Handling.
- **Messaging & Distributed Systems:** Apache Kafka (Event-Driven Architecture, Saga Pattern).
- **Databases & Caching:** Redis 7 (Redisson Distributed Locks), MySQL, PostgreSQL, Spring Data JPA, MongoDB, Mongoose.
- **Testing & DevOps Tools:** Docker, Postman, Git, GitHub, IntelliJ IDEA, VS Code.
- **CS Fundamentals:** Data Structures & Algorithms (DSA), Object-Oriented Programming (OOP), Concurrency & Multithreading, DBMS Internals, Operating Systems.

ACHIEVEMENTS & CERTIFICATIONS

- **GATE** Qualified – 2026
- Solved 250+ problems on different coding platforms.
- **National Healthcare Hackathon 2026** - Worked as a Frontend Developer on an AI & ML-based Patient Fall Risk Prediction System for healthcare monitoring and analytics.
- **Smart India Hackathon (SIH) 2025** - Developed a Secure Data Wiping System (SaaS) focused on secure IT asset recycling and digital data privacy.
- **ICMMAAC Volunteer** - Coordinated participant registrations and certification activities.
- **Deloitte Technology Job Simulation (Forage) -** Software Development and Coding.
- **Simplilearn Certification** - Java Full Stack Web Development.
